RESEARCH EXPERIENCE

Current
|
September
2021

• Research Technician Associate

BioSocial Methods Collaborative

 Institute for Social Research, University of Michigan

- Using behavioral coding, psychophysiological, and traditional behavioral methods online and in a homelike setting, conducting research that bridges biology and behavior tackling varied interdisciplinary topics.
- Assisted in hosting annual research training workshops for early career researchers and graduate students in public health and related fields
- Worked on several projects exploring (among other things):
 - how environmental context can impact perceptions and preferences of scents;
 - how different framings and can influence individuals' appraisal of situations and influence capacity/cognitive reserves;
 - how co-parents undergo behavioral and physiological synchrony in a mildly stressful situation with a young child

Full-time Research Assistant & Lab Manager

(PI: Alexander Todorov)

📍 Princeton University

- Using psychophysical, neuroimaging, and general experimental methods in the lab and online, investigating how people evaluate their environments and how these evaluations shape perceptions, decisions, and interactions.
- Worked on several projects exploring (among other things):
 - how the distribution of facial features in an environment may bias people's evaluations of others;
 - how people integrate physical appearance and individualizing information in their impressions of others;
 - how people are able to associate affective information with faces and its limitations;
 - how people's mental images of a prototypical group member differ depending upon the label used to describe said group (e.g., labeling immigrants as "illegal" vs. "legal");
 - data-driven models of social perception, and the relative contributions of consensus and consistency in decision making.

|
September
2014

Graduate Student Researcher

(PI: Wayne Chan)

📍 Rutgers University, Camden

- Studied the effect of observer personality in person perception and bias using survey-based methods.
- Worked on projects exploring:
 - how people use stereotypes to judge strangers' personality from minimal external information;
 - how personality predicts the degree people ascribe humanity to the elderly and people with mental illnesses;

2014

Volunteer Undergraduate Research Assistant

(PI: Wayne Chan)

📍 Rutgers University, Camden

- Studied the effect of observer personality in person perception and bias using survey-based methods.
- Worked on project exploring:
 - how prejudice towards various across various age groups and how it may influence attraction;

May
2013
|
January
2012

Volunteer Undergraduate Research Assistant

(PI: Christopher Nave)

📍 Rutgers University, Camden

- Using behavioral coding using the Riverside Behavioral Q-set, studied the impact and stability of personality over the lifespan and its impact on behaviors.
- Worked on projects exploring:
 - how childhood personality impacts health behaviors and cognition several decades later;
 - how gay and lesbian couples provide social support and regulate their partners' health behaviors;

TEACHING EXPERIENCE

Current
|
2023

Online Adjunct Instructor

Instructor for Lifespan Development (PSY-357 O500)

📍 Grand Canyon University

- Serving as an instructor for 8-week online section of an elective psychology course covering development development across the lifespan, from birth until end of life, adhering to departmental standards and requirements, moderating discussion question, providing supplemental materials, and resources, grading assignments, and managing classroom.

Current
|
2023

Online Adjunct Instructor

Instructor for Adult Development and Aging (PSY-358 O500)

📍 Grand Canyon University

- Serving as an instructor for 8-week online section of an elective psychology course covering adult development and the aging processes, adhering to departmental standards and requirements, moderating discussion question, providing supplemental materials, and resources, grading assignments, and managing classroom.

Current
|
2021

Online Adjunct Instructor

Instructor for Social Research and Statistics (SOC-400-O500)

📍 Grand Canyon University

- Serving as an instructor for 8-week online section of required research methods course, adhering to departmental standards and requirements, moderating discussion question, providing supplemental materials, and resources, grading assignments, and managing classroom.

2020
|
2017

Tutor

Independent Contractor

📍 Self

- Tutored both traditional college students and adult learners in statistics, psychology, neuroscience, and general SPSS use, utilizing both in-person and online settings.

Spring
2015

Teaching Assistant

Camden Department of Psychology

📍 Rutgers University, Camden

- Course: *Statistics for Social Sciences* (50:830:250) (Instructor: Wayne Chan)
- Prepared and gave weekly class lectures, created and graded weekly homework assignments and exams, and met with students for additional course assistance in small groups as well as open sessions.

Spring
2015
|
Fall 2014

Faculty Assistant

Camden Department of Psychology
 Rutgers University, Camden

- Courses: *Social Psychology* (50:830:335) (Instructor: *Wayne Chan*) & *Psychology of Prejudice* (50:830:461) (Instructor: *Wayne Chan*)
- Moderated online discussion forums and graded students' weekly reaction blog assignments.

SELECTED MANUSCRIPTS, PUBLICATIONS, AND POSTERS
